EDUCATION

New York City College of Technology

Brooklyn, NY

Bachelor of Technology in Computer Systems Technology, GPA: 3.8/4.0

Expected Graduation: May 2026

TECHNICAL SKILLS

Languages: Python, C, TypeScript/JavaScript, HTML/CSS, SQL, Java

Frameworks: React, Next.js, IBM Watsonx, MySQL, Adminer

Developer Tools: Git, Docker, VS Code, IBM Watsonx, Capacitor

Libraries: pandas, NumPy, Matplotlib, Selenium, TensorFlow, PyTorch, React

PROJECTS

NYC Small Business Violation Analyzer | 3rd Place, City Tech Datathon

April 2025

- Analyzed over 20M+ city violation cases in Python to identify patterns harming small businesses
- Designed automated scripts to detect repeat fines and visualize geographic and temporal trends
- Discovered 268 million dollars in unnecessary fines from unclear sidewalk citations

CUNY Compass | IBM Watsonx Hackathon Project

May 2025

- Built an AI-powered chatbot using IBM Watsonx to help CUNY students access academic and financial aid info
- Used prompt engineering and natural language processing for accurate, context-aware responses
- Trained the model on degree catalogs, aid resources, and FAQs for retrieval-augmented generation architecture
- Presented to IBM mentors and designed for future student use across all CUNY colleges

STIHL Product Scraper | Freelance Web Scrapping

June 2025

- Developed a Python-based web scraper to extract product information from STIHL's shopping site in Brazil
- Utilized Selenium library to automate traffic, read information, and export neatly in CSV and JSON files
- Scrapped information includes product names, prices, technical specifications, and images URLs of all products on the site

PROFESSIONAL DEVELOPMENT

- Senator of Technology and Design - City Tech Student Government Association
- Officer - City Tech Google Developer Group
- Chief Research Officer - Data Science and Technology Innovation Club at City Tech
- City Tech's Honors Scholars Program - Dean's List
- Stanford DeepLearning.AI Machine Learning Specialization Course - Foundations of supervised and unsupervised learning, regression, clustering, and classification theory
- Google Machine Learning Course - Practical introduction to applied ML pipelines and model development
- Google IT Support Fundamentals Certificate – Troubleshooting, OS basics, system admin tasks
- FreeCodeCamp Responsive Web Design – HTML/CSS foundations

WORK EXPERIENCE

Founding Engineer

July 2025 - Present

GeekSpeaker Inc.

New York, NY

- Designing, developing, testing, and deploying GeekSpeaker software solutions and websites
-

Transportation Construction Inspector

Summer 2022

New York State DOT

Albany, NY

- Lead, collaborated on, and monitored state infrastructure construction
- Performed data entry and validation in a state-wide transportation database, ensuring accuracy and consistency across construction project records
- Contributed to process improvements by identifying inefficiencies in data collection and entry procedures
